

Your life's purpose is  
buried in the chaos.

## 100 DAY HOME ORGANIZATION PROGRAM

Here's how the 100 Day Home Organization Program will help you thrive:

- Complete daily actionable tasks that take just 15 minutes a day—so you can make steady progress and take back your home and your life.
- Learn a sequential organizational process that begins with the easier spaces to tackle—you'll strengthen your organizing muscles as you move through your home.
- Become a lifetime member of a supportive community—and get all the ideas and encouragement you need to refine your methods over the course of days, months, and years.

Wash, rinse, and repeat. Your home will get more organized, and you will become more productive each time you go through the 100 Days.
